

N. MANIKANTA

Vijayawada, Andhra Pradesh, India | +91 8790367989 | nmanikanta.cse2025@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

B.Tech graduate in Computer Science and Engineering with CCNA training and hands-on experience in Cisco networking, including VLANs, trunking, inter-VLAN routing, DHCP, static and dynamic routing, network troubleshooting, and security fundamentals. Skilled in structured troubleshooting using ping, traceroute, and Cisco IOS show commands. Seeking a Network Engineer Trainee, L1 Network Support, or NOC Analyst role to apply core networking fundamentals and a strong willingness to learn enterprise network technologies.

TECHNICAL SKILLS

Networking Fundamentals: OSI Model, TCP/IP, LAN/WAN, IPv4 Addressing, Subnetting, ARP, ICMP, DNS, DHCP, NAT
Routing & Switching: Static Routing, RIP/RIPv2, OSPF, EIGRP, BGP, FHRP, HSRP, VRRP, ACL, Routing Tables, VLANs, Access/Trunk Ports, 802.1Q, Inter-VLAN Routing, STP/RSTP Fundamentals

Cisco Devices: Cisco 2911 Router, Cisco 3560 Multilayer Switch, Cisco 2960 Access Switch

Security Fundamentals: Port Security, Basic Firewall Configuration, ACL-Based Access Control

Troubleshooting: Ping, Traceroute, ipconfig/ifconfig, nslookup, Interface/Port Status, IP Reachability, Packet Loss & Latency Basics

Tools: Cisco Packet Tracer, GNS3, Wireshark, tcpdump, Nmap, Zabbix, SNMP Monitoring, ServiceNow

Systems: Linux Fundamentals (User & Group Management, File Permissions, Process & Service Management, Basic Shell Commands), Windows Fundamentals

Programming: Python (Basic)

Professional Skills: Analytical Troubleshooting, Communication, Technical Documentation, Teamwork, Willingness to Work Rotational Shifts

PROJECTS / HANDS-ON EXPERIENCE

Company Network Design & Implementation

Cisco Packet Tracer

- Designed and implemented a three-floor enterprise network using Cisco 2911 routers, Cisco 3560 multilayer switches, and Cisco 2960 access switches.
- Configured VLANs, trunking, SVI-based Inter-VLAN routing, OSPF dynamic routing, DHCP relay, NAT/PAT, and ACLs for secure and reliable network communication.
- Implemented dual-ISP WAN connectivity and integrated DHCP, DNS, FTP, Web, Email, and wireless services; verified connectivity using Cisco IOS troubleshooting commands.

Skills/Technologies: Cisco 2911 | Cisco 3560 | Cisco 2960 | VLAN | SVI | OSPF | DHCP | NAT/PAT | ACL | WAN | Cisco Packet Tracer

Enterprise Multi-Floor Network Design & Implementation

Cisco Packet Tracer

- Designed and implemented a multi-floor enterprise network using VLAN segmentation, trunking, and inter-VLAN routing to separate departments and manage network traffic.
- Configured DHCP, OSPF dynamic routing, and wireless networking; verified end-to-end connectivity between departments.
- Performed network troubleshooting and configuration verification using Cisco IOS show commands, ping, and traceroute.

Skills/Technologies: VLAN | Trunking | Inter-VLAN Routing | DHCP | OSPF | Wireless Networking | Cisco Packet Tracer

Access Control List (ACL) Implementation

Cisco Packet Tracer

- Configured Standard and Extended ACLs to control traffic between different networks based on security requirements.
- Applied inbound and outbound ACL rules on router interfaces; verified permitted and denied traffic using ping and Cisco IOS show commands.
- Troubleshot ACL configurations and validated connectivity and access control policies.

Skills/Technologies: Standard ACL | Extended ACL | Cisco IOS | Cisco Packet Tracer

CERTIFICATIONS

- CCNA - Networking Training, Zoom Technology
- MCSE, Zoom Technology

EDUCATION

B.Tech, Computer Science and Engineering

2021 - 2025

Amrita Sai Institute of Science and Technology | CGPA: 7.03

ADDITIONAL SKILLS

- Linux Basics
- Network Troubleshooting
- Network Monitoring Basics
- ITIL Fundamentals / Ticketing Systems
