

N. MANIKANTA

Vijayawada, Andhra Pradesh, India | Phone: 8790367989 | Email: nmanikanta.cse2025@gmail.com

PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering graduate with CCNA training and hands-on practice in Cisco networking, VLANs, trunking, inter-VLAN routing, DHCP, routing, switching, and network troubleshooting. Seeking a Network Engineer Trainee / L1 Network Support / NOC role to apply networking fundamentals, troubleshooting skills, and a strong willingness to learn enterprise network technologies in a 24x7 rotational shift environment.

TECHNICAL SKILLS

Networking Fundamentals: OSI Model, TCP/IP, LAN/WAN, IPv4 Addressing, Subnetting, ARP, ICMP, DNS, DHCP, NAT

Routing & Switching: Static Routing, RIP/RIPv2, Routing Tables, VLANs, Access/Trunk Ports, 802.1Q, Inter-VLAN Routing, STP Fundamentals

Cisco Devices: Basic Router/Switch Configuration, Interface Configuration, Show Commands, Connectivity & Port Troubleshooting

Troubleshooting: Ping, Traceroute, ipconfig/ifconfig, nslookup, Interface/Port Status, IP Reachability, Packet Loss & Latency Basics

Tools: Cisco Packet Tracer, Wireshark, tcpdump

Systems: Linux Fundamentals, Windows Fundamentals,

Professional Skills: Analytical Troubleshooting, Communication, Documentation, Teamwork, Willingness to Work Rotational Shifts

PROJECTS / HANDS-ON

Enterprise Multi-Floor Network Design & Implementation | Cisco Packet Tracer

- Designed and implemented a multi-floor enterprise network using VLAN segmentation and inter-VLAN routing.
- Configured VLANs, trunking, DHCP, OSPF routing, and wireless networking.
- Configured and verified network connectivity using Cisco IOS commands and troubleshooting techniques.
- Used Packet Tracer to simulate and troubleshoot enterprise network scenarios.

Enterprise Network Design & Implementation | Cisco Packet Tracer

- Designed and implemented a multi-floor enterprise network using Cisco Packet Tracer.
- Configured VLAN segmentation and trunking to separate departments and manage network traffic.
- Implemented inter-VLAN routing, DHCP, and OSPF dynamic routing for network connectivity.
- Configured wireless networking and verified end-to-end connectivity between departments.
- Performed network troubleshooting using Cisco IOS commands and verified routing, interfaces, and connectivity.

CERTIFICATIONS

- CCNA — Networking Training, Zoom Technology

EDUCATION

B.Tech – Computer Science and Engineering : Amrita Sai Institute of Science and Technology | 2021–2025 | CGPA: 7.03

Intermediate (MPC) : Jaggaihpeta Residential College | 2018–2020 | CGPA: 7.4

10th Standard : Don Bosco Boys High School | 2017–2018 | CGPA: 8.5

ADDITIONAL SKILLS

- Linux Basics
- Network Troubleshooting
- Technical Documentation
- Problem Solving
